HUSBAND WIFE TEAM DOES IT AGAIN

Naperville Dental Specialists and Innovative Orthodontics both recipients of Award

Naperville, IL (May 18, 2009) Less than two years ago Dr. Anthony LaVacca and his wife Dr. Manal Ibrahim decided they wanted to leave New York and raise their growing family in the bustling suburb of Naperville and open a practice that would be a one stop shop for the community's oral healthcare needs.

Dr. LaVacca opened Naperville Dental Specialists and Dr. Ibrahim is in the adjoining suite of their downtown Naperville office with her practice, Innovative Orthodontic Centers. Because of the personal touch and high level of energy, their practices have more than tripled in growth. Each have several dozen accolades to their names. Dr. Ibrahim is one of only 1% that carries the title Invisalign Provider Elite, and Dr. LaVacca is the chosen Mentor for the Ladera Ran Implant Institute for the Midwest region.

On May 8th, 2009 both Naperville Dental Specialists and Innovative Orthodontic Centers won the prestigious Naperville Area Chamber of Commerce Small Business of the Year Awards.

"I am truly honored to receive this award! I am beyond thrilled and I owe it all to my team," said Dr. Manal Ibrahim when asked how she felt about being a recipient.

Innovative Orthodontic Centers has 17 staff members and treats patients from 7 – 70 years of age.

Dr. LaVacca added, "Words cannot express how excited I was to receive the Small Business of the Year Award from the amazing Naperville Chamber. It was a very happy night."

Dr. LaVacca is currently seeking candidates in need of implants or dental work to participate in the upcoming Ladera Ranch Implant Institute program.

###
