SHOREWOOD – Dr. Manal Ibrahim, owner of [Innovative Orthodontic Centers](#) in Shorewood and Naperville, has been named a top provider of AcceleDent nationally.

Not only does Ibrahim share these technologies with her patients, she also shares her knowledge and success of integrating Accelerated invisalign as a preferred treatment modality to her peers.

She has spoken to various groups of orthodontists throughout the country, including being the featured presenter in October as part of a continuing education webinar series offered through OrthoAccel.

By providing a series of case reviews, she showcased how orthodontists can provide better control of tooth movement, more efficient patient care and enhanced results using invisalign and AcceleDent.

In September, Ibrahim also shared her accelerated orthodontics success stories with the Progressive Ortho Study Club in Houston, Texas and lectured in St. Louis.

As a diplomate of the American Board of Orthodontics, Ibrahim has been providing orthodontic and dental care to her patients for almost 25 years.
